

PASSION FOR EXCELLENCE
PREPARATION FOR LIFE

GLOBE Charter School educates Kindergarten through Sixth Grade students academically, emotionally, and socially to become involved and productive citizens of the world.

Student Classroom Assignments Policy

At the beginning of the new school year, students are assigned a teacher for the grade level they are enrolled in. The teacher assigned to each student is determined by the GLOBE Charter School's Teacher/Staff Committee. These decisions for student placement are made based on both academics and social criteria. The student placement process is done in consideration for what is best for each child's success for the upcoming school year. No special request for preferred teachers will be accepted. Any changes to the classroom assignment will be done by the GLOBE Charter School Administration only.
