

PASSION FOR EXCELLENCE
PREPARATION FOR LIFE

GLOBE Charter School educates Kindergarten through Sixth Grade students academically, emotionally, and socially to become involved and productive citizens of the world.

Student/Teacher Placement Policy

Students are assigned teachers with consideration to the data, personality, student/teacher strength and weakness compatibility, classroom make up, etc... Once a student is assigned to a classroom that decision is final and may only be changed at the written recommendation of the Building Leadership Team if circumstances warrant the move is in the best interest of the student.
